We look forward to having you onboard

World renowned DAN doctors will be lecturing, conducting research and making bubble tests on participating recreational and technical divers after their dives.

Itinerary:

Strait of Gubal, Brothers, Daedalus, Rocky.

Education and research targets:

Update participants on the state of the art of diving medicine and decompression theory with lectures and group discussions.
How to do bubble measurements with echography and other related measurements.

Unlimited recreational dives on the most beautiful reefs in the Red Sea and for qualified technical divers - expedition dives on known and unknown wrecks:

- **Maidan 85-120M, Rocky Island**
- **Zealot 75-115M, Daedalus Reef**
- **Numidia 12-85M, Big Brother**
- **Unknown steamship in the Strait of Gubal**
