

In collaboration with
Belgian Society for Diving and Hyperbaric Medicine

EUBS Webinar on 'Good Clinical Practice in HBO Therapy'

December 15th, 2021 - 1600-1900 Hrs CET

Programme:

Introduction.

*Ole Hyldegaard (EUBS Immediate Past President),
Bengusu Mirasoglu (EUBS Vice-President)*

The ECHM Consensus on Indications for HBO Therapy – EBM,
emerging indications and not-supported indications.

Alessandro Marroni (ECHM Vice-President)

The European Code of Good Practice in HBO therapy – revised 2021.

Jacek Kot (ECHM President)

Contra-indications, precautions and risk-benefit evaluation
in HBO therapy.

Peter Germonpré (EUBS Honorary Secretary)

Management of diving accidents in HBO centers: more than just
selecting a initial treatment table.

Jean-Eric Blatteau (EUBS President)

Research in hyperbaric medicine/physiology: methodology and pitfalls.

Virginie Papadopoulou (UNC Chapel Hill)

Discussion / questions.

Moderated by Ole Hyldegaard & Bengusu Mirasoglu

Conclusion.

Ole Hyldegaard and Jean-Eric Blatteau

This topic has been chosen based on feedback after our first webinar, and also on the request of members from quite some European countries, requesting formal guidance and a clear position of EUBS regarding HBO practice. The work and publications of the European Committee for Hyperbaric Medicine (ECHM) will serve as the basis of these recommendations (www.echm.org).
